Your Voice Matters for a Safer Island!

The Government of St. Maarten is working hard to strengthen our community's resilience. A big part of this effort is the ongoing project, "Establishing the Design, Operations, and Maintenance of an Early Warning System in St. Maarten."

This project, supported by RESEMBID, funded by the European Union and implemented by Expertise France, focuses on creating an effective, end-to-end Early Warning System for St. Maarten. It covers everything from technical aspects, governance and messaging, ensuring we're prepared for any situation.

But we can't do this without your help. We need your input to shape the Early Warning and Messaging System. You can share your thoughts by taking our survey, available on the government website, social media pages, and the Department of The Interior and Kingdom Relations (BAK) social media.

The deadline to complete the survey is October 21st, 2024. Your voice matters in helping make our community safer.
